ABOUT THE TRAINING

This online training is designed for group leaders who plan to implement the [Incredible Years® Parents and Babies Program](#). This 9–12 session program focuses on teaching parents how to provide nurturing parenting to babies including: offering physical, tactile, verbal and visual stimulation, coping with crying babies, safety proofing one's house, and understanding the developmental needs of babies. Group therapy process issues such as empowering parents, collaborating, dealing with resistance, confronting and teaching, supporting and advocating for parents will be discussed. It is recommended (but not required) that group leaders have previously attended the Incredible Years® BASIC Parent Group Leader Training. Our online trainings are intended to be highly interactive and collaborative. Attendees should plan for active participation!
