About the Training

This online training covers in depth the Incredible Beginnings[®] Program for teachers and child care providers, which is designed to promote positive teaching strategies for children ages 1 to 5 years. The program topics focus on ways preschool and day care providers can provide an environment that promotes optimal development of children's social competence, emotion literacy, self-regulation, and sense of security and attachment, as well as early problem solving and academic readiness skills. Providers also learn strategies for managing children's behavior problems, as well as language and developmental delays. To learn more about this program, visit our website: <http://www.incredibleyears.com/programs/teacher/incredible-beginnings-program/>

The workshop will train group leaders to deliver the Incredible Beginnings[®] Program curriculum to teachers and child care providers, including a training protocol for teachers of toddlers (1-3 years) and one for preschoolers (3-5 years). In this collaborative, interactive training, participants learn group leadership skills such as goal setting, mediation of video vignettes, how to set up role play practices, development of behavior plans, and benefits/barriers exercises. Topics include building positive relationships & managing separation anxiety, using social & emotional coaching, promoting language development, and proactive teaching with predictable routines & consistent positive behavior management strategies. After this training, leaders can offer the Incredible Beginnings Program 6-day curriculum to groups of teachers and/or child care providers.
